Heating, ventilation, and Air conditioning

MAINTENANCE & INSTALLATION:

Our professional experienced technicians & engineer team can install & repair all types of HVAC units, ensuring business is run, smoothly and efficiently. we tackle everything from maintenance to repairs.

DESIGN: based on the principles of thermodynamics, fluid mechanics, and heat transfer we can provide Designing for Cooling/heating capacity, duct & pipe sizing & selection of HVAC equipment and ducts For high-precision, innovative and energy-efficient system for industrial, hospitality, commercial, healthcare, pharmaceutical, IT, warehouse and residential contact us.

Our goal is to provide thermal comfort and acceptable indoor air quality by engineering detailed design.

DRAFTING: We have best qualified draftsmans team who can provide you detailed MEP 2d & 3d drawings in Autocad & revit .

"We also provide Annual Maintenance Contract (AMC) services"

MACHINE SHOP WORKS & HARD CHROMING

FIRST SHINE provides all types of LATHE, CNC ,VMC & other machine Jobs

- Precision Work with proper finishing & Provides Fast delivery
- We work With and Without Material we have Variety of materials
- Experience technicians & engineer Specialised in customisation
- and modifications jobs

Hard chrome plating we provide chrome surface coating by electroplating for metal hardness, ability to minimize sliding wear, corrosion protection and extending the life of metal parts, For any quaries and work PLEASE contact FIRST SHINE

MOTOR REWINDING, REPAIR & OVERHAULING

Get your motor up and running smoothly again with our top-notch electric motor repair, maintenance, and overhaul services.

We specialize in:

- Rewinding (8-400 HP)
- AC & DC Motor Repairs
- Centrifugal & Submersible Pump
- Gear Motor Rebuilds
- Compressor Overhauls
- Bearing Replacement & Balancing

Rest assured, all our work comes with a warranty. Additionally, in the event of an unexpected failure, we provide 24/7 emergency repair services to minimize downtime and ensure your operations stay on track.

METAL FABRICATION WORK

We boast the finest team of welders and fabricators capable of turning your concepts into reality, whether it's small parts or massive structures. Our expertise spans commercial, industrial, and residential projects, with specializations in ARC, TIG, and GAS welding.

You can rely on us for:

1. Stainless Steel TIG Welding for the Food Industry
2. Warehouse and Structural Fabrication
3. Safety Barriers, Fencing, and Rooftops
4. Staircases and Gates
5. Fixed or Movable Conveyors and Platforms

And much more...

Contact us today to bring your welding and fabrication needs to life.

We also Fabricate & repair

1. Automatic sliding gates
2. Sliding gates & channels
3. Shutters
4. Overhead sectional gates
5. High speed doors
6. Sectional doors
7. Rolling grills

HYDRAULIC REPAIR & MAINTENANCE

We specialize in repairing, reconditioning, and overhauling Hydraulic Pumps, Motors, Cylinders, valves, and power pack units. Our services include:

- Piston rod chroming and barrel honing
- Installation of original, heavy-duty, and high-temperature-resistant parts
- Preparation and installation of special sizes and types of seals
- Priority handling for urgent repairs with a focus on reliability
- Furthermore, we meticulously verify our repairs through calibration and testing to ensure a 100% satisfactory result.

ELECTRONIC REPIAR

Having issue in electronics??

FIRST SHINE provide a best possible reliable solution for repair of AC/DC drives, HMI, PLC, Displays, touch panels, servo motors, Industrail computers, and printed circuit boards etc..

We diagnose the intricate issues with meticulously rigorous individual testing.we provide details for damage parts or issues also provide testing daignosing reports.

ALL TYPES OF PCB

Advanced Predictive Maintenance (PDM)

Bring digitalization to your maintenance work by AI and IoT driven Predictive Maintenance this can

- Minimize costly downtime
- Replace close to failure components only
- Enable just in time estimating order dates
- Discover patterns for problems
- KPI of asset condition
- Reduce risk collecting data,

Facilities can use various types of sensors Such as,

- ☒ Lubricant/Oil analysis.
- ☒ Infrared thermology (IR)
- ☒ Current/Voltage analysis
- ☒ Vibration analysis.
- ☒ Ultrasonic.
- ☒ Acoustic/Pressure analysis.

PLC, CONTROL PANNEL DESIGN & MODIFICATION

PLC & SCADA:

We develop & deliver PLC & SCADA system programming for industrial control system we can provide complete new setup also modification and upgradation to existing system.

We design to monitor and regulate machines, manufacturing processes, Industrial & commercial area with automation technology.

HMI :

We offers complete engineering support for all our HMI solutions. Our Engineering Team provides full design and development of any human-machine interface product from User Interface (UI) design, screen specification, and HMI software

Control pannel :

We design & fabricate customised control pannel based on requirement also upgrade existing pannel with built & as-built drawigs

we design Industrial Automation, production line, Hydarulic, Pneumatic, HVAC BMS, Process control pannels ensuring your panel is designed, constructed, tested, and delivered on budget and on-time..

ELECTRICAL ITEMS

WE PROVIDE HUGE VARIETY OF GENUINE & GOOD QUALITY ELECTRICAL PRODUCTS WITH REASONABLE PRICES.

MAGNETIC CONTACTORS

CIRCUIT BREAKER ACB, MCB, MCCB

RELAYS, TIMER FUSES & ENCODERS

LIMIT, ROTARY, LEVEL SWITCHES

ELECTRIC & CONTROL CABLES
